Refereed Publications

The X-ray luminosity function of AGN at $z \sim 3$

J. Aird, K. Nandra, A. Georgakakis, E. S. Laird, C. C. Steidel and C. Sharon
MNRAS, 2008, 387, 2, 883

A new method for determining the sensitivity of X-ray imaging observations and the X-ray number counts

A. Georgakakis, K. Nandra, E. S. Laird, **J. Aird** and M. Trichas
MNRAS, 2008, 388, 1205

AEGIS-X: The Chandra Deep Survey of the Extended Groth Strip

E. S. Laird **et al.**

ApJS, 2009, 180, 102

The evolution of the hard X-ray luminosity function of AGN

J. Aird, et al., MNRAS, in press, (arXiv:0910.1141)

Suzaku view of Swift/BAT AGNs (III): Nature of the moderately absorbed population

J. Aird, Y. Ueda, et al., in preparation

Non-refereed Publications

The Growth of Supermassive Black Holes Across Cosmic Time

K. Nandra, **J. Aird**, et al.

Science White paper submitted to Astro2010 Decadal survey (arXiv:0903.0547)
